

Borough of Madison, New Jersey

COVID-19 Update 6/22/22

Since the arrival of COVID-19 in March 2020, there have been a total of 2,819 confirmed (PCR test) and 738 probable (antigen test) COVID-19 cases reported in Madison Borough*. The chart to the right shows the trend in newly reported cases throughout the pandemic. Home-based COVID-19 tests are not required to be reported to public health authorities and thus remain unrepresented in case-count data. Beginning in late March 2022, another smaller wave of COVID cases began to appear, despite home tests not being included; while the number of new cases has receded a bit, remission has not yet returned to the low levels seen earlier in March after the initial Omicron wave subsided. According to the

[CDC Nowcast model](#), in the week ending June 18, 2022, the Omicron sub-variant BA.2.12.1 is predicted to be identified in 69.7%, the BA.5 sub-variant in 17.6%, the BA.4 sub-variant in 7.4% and the BA.2 sub-variant in 5.3% of samples tested in the NY/NJ region. NJDOH and local health departments across New Jersey are actively monitoring these changes in variant dominance as well as any changes in transmission, hospitalizations, and deaths. More information on these trends can be found on the [NJDOH COVID-19 Data Dashboard](#).

*More information on the definitions “confirmed” and “probable” as well as “PCR” and “antigen” tests can be found [HERE](#).

COVID-19 Cases, Incidence Rate, Deaths, and Case Fatality Rates New Jersey vs. Morris County vs. Madison Borough

	Total Confirmed Cases	Total Probable Cases	Total Deaths	Overall CFR**	Total COVID Cases Reported by Facilities - Residents*	Total COVID deaths Reported by Facilities - Residents*	CFR** for Facility Residents*
New Jersey	2,112,475	354,957	30,893	1.5%	51,550	8,641	16.8%
Morris County	113,810	21,543	1,268	1.1%	3189	558	17.5%
Madison	2,819	738	29	1.0%	104	14	13.5%

*Residents of long term care or assisted living facilities or group homes

** Case Fatality Rate is the percentage of COVID-19 cases who have died from COVID-19 related illness
